REPORT DESCRIPTION

Cyber Weapon Market - Global Industry Analysis, Size, Share, Growth, Trends and Forecast 2015 - 2021

Cyberspace has emerged as the new domain for warfare. Any information technology (IT) based system connected to the Internet is vulnerable to cyber-attacks. Cyber weapons are software codes or programs powered by zero-day exploits and vulnerabilities aiming to violate the confidentiality of targeted systems. With the emergence of cyberspace as a new podium for warfare, cyber weapons have gained much importance globally. Furthermore, rising threat to cyber security from adversary nations is also impelling governments to invest more in the development of novel cyber warfare techniques, particularly in critical infrastructure such as smart power grids, industrial control system, and national defense systems.

Cyber Weapon Market Full Report Detailed Description:

<http://www.transparencymarketresearch.com/cyber-weapon-market.html>

The value of the Global Cyber Weapon Market is at US\$390.0 bn in 2014. Rising at a moderate CAGR of 4.40% between 2015 and 2021, the market is likely to reach US\$521.8 bn in 2021.

Global Cyber Weapon Market: By Geography

North America

- U.S.
- Canada
- Mexico

Europe

- U.K.
- Germany
- France
- Rest of Europe

Asia Pacific

- India
- China
- Japan
- Rest of Asia Pacific

Rest of the World

- Latin America
- Middle East
- Africa

Among these regions, North America leads the global cyber weapon market. Increasing investment by the U.S. government to secure their defense system and overall IT infrastructure from cyber-attacks is fuelling demand from the North America cyber weapon market.

Expansion of the arms manufacturing industry in the cybersecurity business and rising demand for advanced techniques of cyber warfare are further fuelling the demand from the cyber weapon market. Despite exhibiting positive growth in demand, the cyber weapons market faces hindrance from stringent government regulations restricting the access to cyber weapons to legal institutions or organizations.

Global Cyber Weapon Market: By Type

- Defensive
- Offensive

At present, organizations focus more on defensive technology. However, they are gradually shifting their focus on developing offensive cyber capabilities and setting up units to train professionals. Such activities lead to overall growth of the global cyber weapon market.

Global Cyber Weapon Market: By Application

- National Defense System
- Communication Network
- Industrial Control System
- Financial and Banking
- Smart Power Grid
- Air Traffic Control
- Automated Transportation System
- Hospital

Of these, the national defense systems segment holds the largest share in the global cyber weapon market in terms of revenue. The defense sector will continue to dominate the global market during the forecast period as well, states the report.

Below Mentioned Companies are the Key Players for Cyber Weapon Market

- Lockheed Martin Corporation
- The Boeing Company
- BAE Systems plc
- Raytheon Company
- General Dynamics Corporation
- Northrop Grumman Corporation
- Airbus Group SE

About TMR

Transparency Market Research is a market intelligence company providing global business information reports and services. Our exclusive blend of quantitative forecasting and trends analysis provides forward-looking insight for thousands of decision makers.

We are privileged with highly experienced team of Analysts, Researchers and Consultants, who use proprietary data sources and various tools and techniques to gather, and analyze information. Our business offerings represent the latest and the most reliable information indispensable for businesses to sustain a competitive edge.
